### **Scholarships and Discounts**

Scholarships, financial assistance and other discounts that the School offers from time to time are only applied to tuition fees. Any levies and charges specifically identified and approved by the School Board do not attract a discount and are payable in full.

Sibling discounts apply to families with two or more children enrolled in one calendar. Although this still applies when a student has a scholarship, it does not apply to families in receipt of any other reduction in tuition fees. Sibling discounts currently apply to families with two children or more but not where families are in receipt of any other reduction in tuition.

Second child: 10% discount

Third child: 20% discount

Further children: 25% discount.
